Exam cramming - page 3

Part 5 - Anatomy

Bonus questions:

(4 points for each perfectly reproduced section / 0 point if there's a mistake)

4 points for this equation:

$$9438 + \text{moun} + \left(\frac{h}{y}\right) k^{37} = \text{dog 7638}$$

4 points for this magnificent poem (-1 point for each spelling mistake):

*Whose dolphin is that? I think I know.
Its owner is a very happy man.
Full of joy like a rainbow!
I watch him laugh. I say hello.
Every day and every night, he plays with his dolphin.
He laughs, he cries and he laughs again.
Then he stops for a moment. And then he starts again.*

4 points for this string of letters:
